

ABOUT US

Spectrum Spine and Pain Care is an outpatient medical clinic specializing in the diagnosis, interventional treatment, and care of chronic pain patients. Spectrum Spine and Pain Care has been successful in treating patients who are non-surgical candidates as well as those who seek alternatives to surgery to treat their chronic pain conditions. The clinic provides consultation services for physicians whom refer patients for further evaluation and treatment for their chronic pain patients.

PROVIDERS

DAVID F. ROWE, MD has provided therapeutic medical care and interventional therapies for patients in the Low Country and surrounding areas since 2011. He is an Anesthesiologist with additional fellowship-training in Pain Management. After graduating from University of Tennessee Health Science Center, Dr. Rowe went on to complete a residency in Anesthesiology and Peri-operative Medicine at the Medical University of South Carolina in Charleston. Following completion of his residency program, he successfully completed fellowship training in Pain Management at MUSC. While at MUSC, Dr. Rowe was engaged in several research studies and publication of scientific articles.
